I would like to comment about the upcoming vote that would affect trade options. I am retiring in the next 10 years and had been looking for a way to supplement my retirement savings. I found a realistic, safe way to do this through learning about trade options. I have only traded a couple of options but have been successful and am working closely with a conservative finance group. I am conservative about the options I take part in.

I'm asking for a vote against this bill since this is detrimental to my rights as a U.S. citizen and effects my plan for retirement. I have no pension and will be totally relying upon social security and my retirement savings for the last 20-30 years of my life and trading options in this safe way will help with my retirement income.

Sincerely,

Elizabeth Laursen Roesler,
